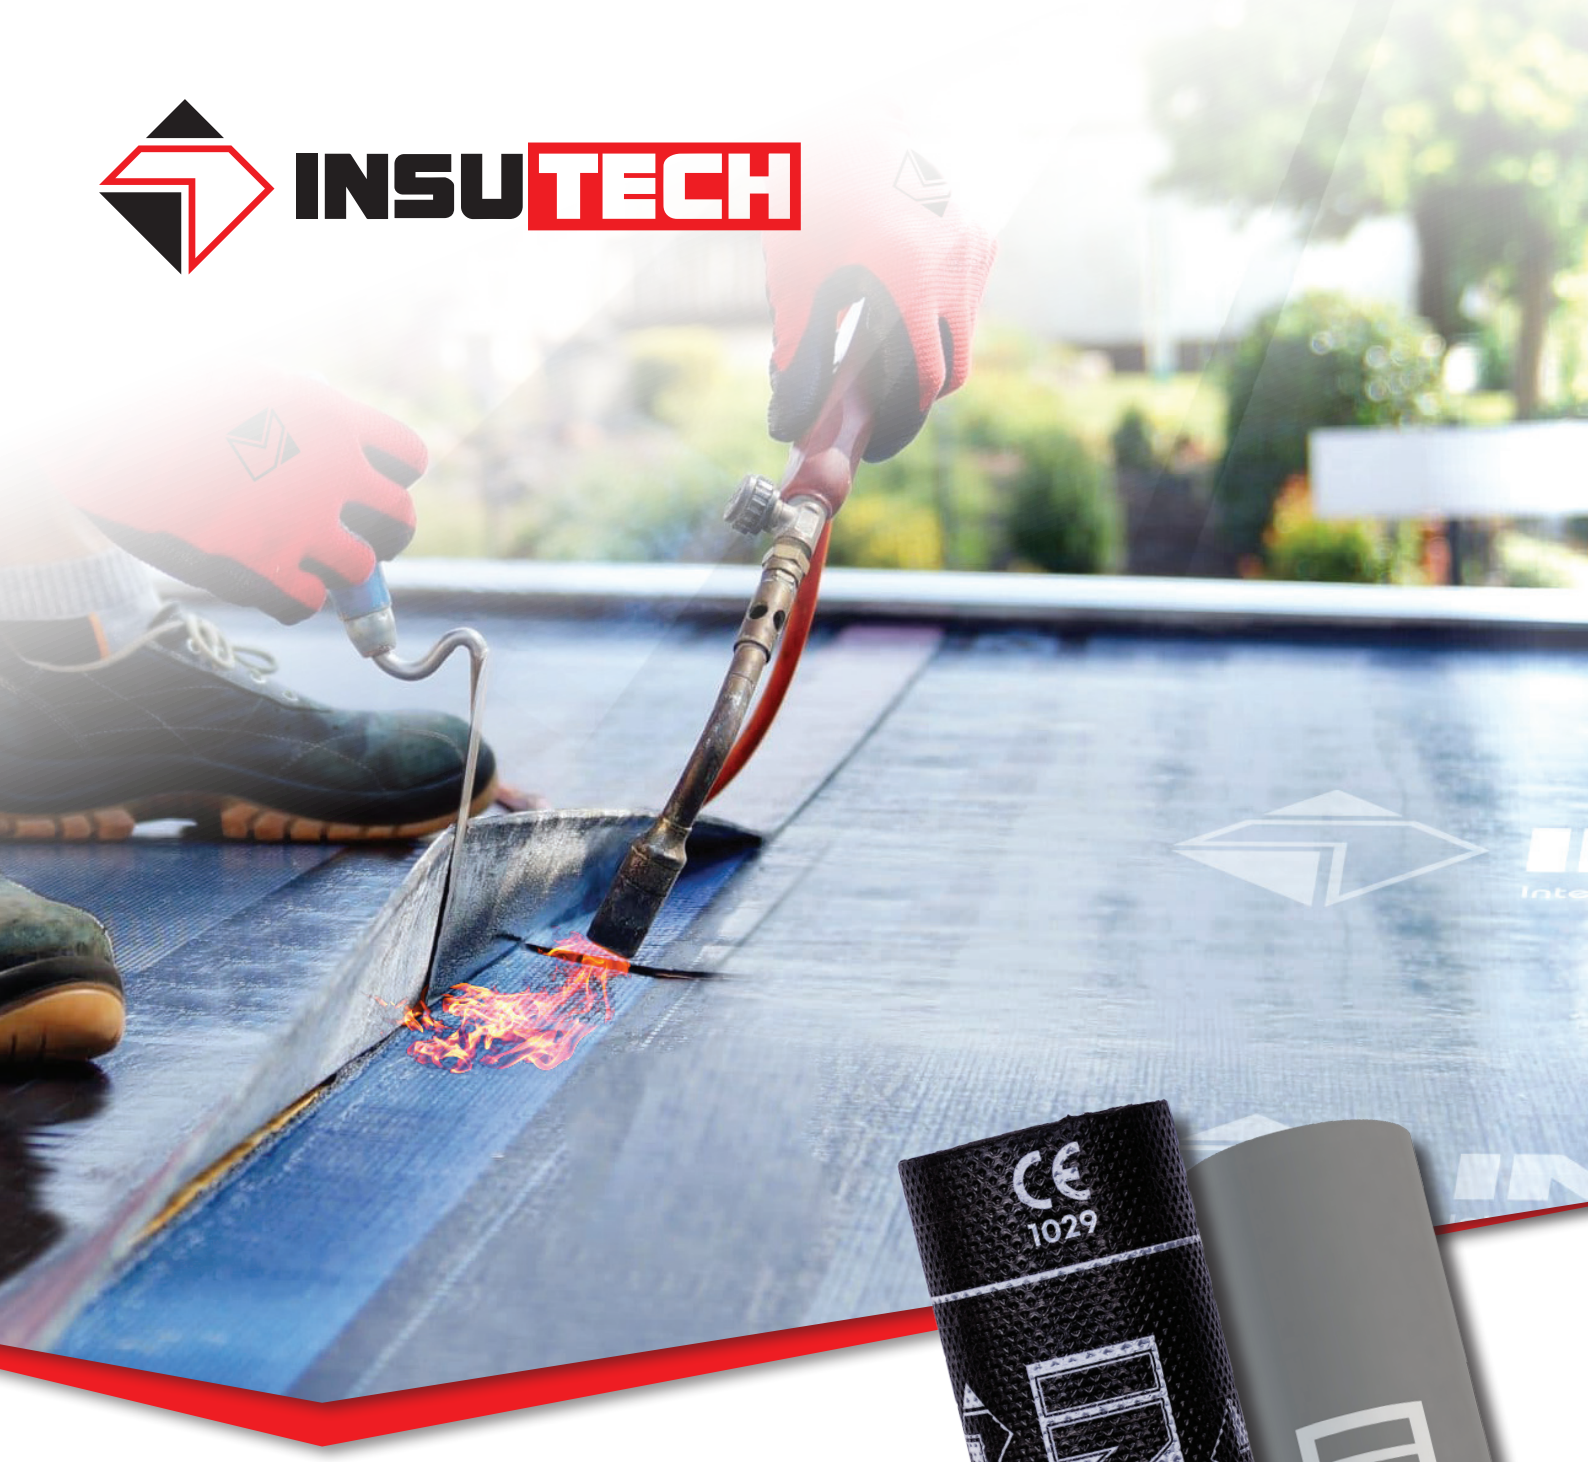
INSUTECH



INSUMEMBRANE

APP/SBS/ INSUSTICK

Insutech is a leading manufacturer of high-quality bitumen membranes, recognized for durability, reliability, and performance through continuous innovation and expertise. All rolls are produced to the highest international standards, and its membranes deliver long-lasting protection across applications from rooftops and basements to major infrastructure projects. With advanced technology, strict quality control, and extensive experience, Insutech offers waterproofing solutions customers can trust.

THICKNESS 2-6 MM

INSUTECH

INSUMEMBRANE
APP/SBS/ANTI-ROOT

Bitumen membranes provide durable waterproofing solutions tailored to different environments. APP membranes are best for hotter climates and roofs exposed to direct sunlight, offering strong resistance to heat and UV rays. SBS membranes perform well in cooler regions and below-grade areas such as basements, where flexibility and low-temperature durability are essential. Reinforced with fiberglass or polyester, both systems deliver strength, reliability, and long-lasting protection. Membranes are also available with antiroot properties for projects with exposed vegetation or greenery.

THICKNESS 2-6 MM | MULTIPLE SPECS | WATERPROOF | LONG LASTING

INSUSTICK
SELF ADHESIVE MEMBRANES

INSUSTICK self-adhesive membranes deliver superior waterproofing performance with the added benefit of quick, clean, and flame-free application. Designed to form an excellent barrier against water vapor, they combine safety, efficiency, and durability in one system. INSUSTICK provides a reliable and sustainable solution for modern waterproofing needs.

THICKNESS 1.5 mm TO 4 mm | FAST AND EASY APPLICATION | ECO FRIENDLY | EXCELLENT ADHESION TO ANY SURFACE

SURFACE
FINISHES

Our wide range of waterproofing membranes designed to meet different project requirements and available with PE and Sand finishes, ensuring durability and reliable performance across various applications. and for maximum UV protection available in mineral & aluminum, delivering maximum protection and extending the service life of the system.

COLOUR OPTIONS | UV PROTECTION | LIGHT FOOT TRAFFIC

SLATED MINERALS

RED | GREEN | GRAY | BLACK

SAND

YELLOW SAND | WHITE SAND
